

CONTENTS

Road Engineering

Application of Intelligent Management and Control System for Asphalt Pavement Construction in Guangxi Guihe Expressway	ZHAO Yong, CHEN Ning, FAN Wangsheng(1)
Research on Influence Factors of Concrete Residual Life Based on Carbonization Model	HUANG Li, SHEN Dongmei(4)
Study on Stability and Remediation Technology of Expressway Karst Subgrade	YANG Huaqing(6)
Pavement Performance Research and Application Evaluation of Hot Mix Plant Recycled Mixture	WANG Yaqi, DING Wensheng, WANG Jun, GE Hao(10)
Study on Treatment of Composite Foundation of Soil-Cement Pile	LIU Fuchun(14)
Study on Magnesium Cement Concrete Mixture Ratio Design	HAN Peng, WANG Yongwei(18)

Bridge & Tunnel Engineering

Research on the Widening Design of 3-way Prestressed Concrete Continuous Box Girder Bridge	WU Wenqing, ZHAI Jianxun, ZHANG Xian, ZHAO Hao, ZHANG Hui(22)
Research on Seismic Performance of Long-span Steel Bridge Considering Time-Dependent Damage Characteristics	ZHENG Yuqian, WANG Ying(30)
Analysis of Influencing Factors on End Reaction of Curved Box-Girder Bridges	LIN Feng, CHEN Juanting(38)
Study on Lateral Stability of Tied Arch Bridge with Small Ratio of Width and Span	ZHANG Xiang(42)
Force Analysis of the Truss of the Baisuixi Bridge	MIAO Yonghui, Xing Yu(47)
Mechanical Analysis and Application of Curved Suspension Pedestrian Bridge	PAN Yujie, WANG Libin, LI Libin, SUN Feixia(50)
Research on Construction Protection of Foundation Abutment Slope of Xiangxi Yangtze River Bridge	HU Mingliang(56)
Influence of the Heating Cable Laying Structure on Melting Snow and Ice of Bridge Deck	GAO Mingming(59)
Numerical Analysis for Skew Entering Excavation of Highway Tunnel Trapezoidal with Umbrella Arch	HU Yawei, FANG Liangzheng, ZHANG Huachuan, HU Qiang, KOU Youzhen, ZUO Xu, WANG Yaze(62)
Study on Lateral Anti-overturning Stability of Continuous Box Girder Bridge with Curved Single Column Pier	WANG Qiang(67)

Communications Engineering

Analysis of the Impact of Congestion Charges on Toll Area and Surrounding Traffic	FAN Tingting, LIU Yingshun(70)
The Study of Public Transportation Evolution and Priority mode——Take Suqian as an Example	FANG Lijun, ZHAO Yongsheng(74)
Mechanism and Strategy Research of Spread Traffic Congestion Management	GU Yehua(77)
Highway Traffic Characteristics Analysis and Countermeasure Research of Urbanization Area	YANG Xun, PAN Shengyun(81)

Rail Transportation

Study on Jiangsu Railway Stock Land Development Countermeasures	XIAO Shen, ZHANG Haijun(85)
Research on the Operation Mode and Risk Allocation Scheme of PPP Project for Urban Subway Track	LI Xiaodong, SHEN Dongmei(90)
